

Living Well and Learning Every Day

The Osher Lifelong Learning Institute at George Mason University is a rich and rewarding membership program where active adults enjoy stimulating intellectual, social and cultural experiences including college-level courses and special events.

“Education is one of our most important allies in keeping America strong and vital in today’s complex world. This means educating not only our children and young adults, but also providing older members of our community with educational opportunities that widen their perspectives and foster deeper understandings of the world they live in. OLLI provides an opportunity to accomplish this, and give Americans of all ages the ability to engage with others in informed and meaningful ways.” —Nick Timreck, OLLI Instructor
